LESSON 13: ROMANS 6:8-23

One With Christ

- 1. What does a Christian "know" (vv. 3, 6, and 9), and what must be done with that knowledge (vv. 11-14)? What is the first step for the Christian in attaining victory over sin?
- 2. In verse 11, where Paul writes, "Consider yourself dead to sin and alive to God in Christ," the word translated "consider" is *logizomai*, which means count, reckon, calculate, take into account; credit, place to one's account; consider, think, suppose; evaluate, look upon as, class; maintain, claim; think on, reflect upon.¹ It turns out that this is an important word for Christians! Read the following verses and reflect on their meaning for your life: Luke 22:37; Romans 4:3-6, 8-11, 22-23; 6:11; 8:18; 9:8; 1 Corinthians 13:5; Philippians 3:13; and 4:8.
- 3. What must a Christian do to live a consistent life before God (vv. 11-14)? What does it mean *to you* that you are not under law but under grace?
- 4. What foundational truth makes it possible for a Christian to obey these instructions?

Living Under Grace

- 1. According to Paul, between what two masters must a person choose (v. 16)? What insights does he provide which help in making this choice?
- 2. What benefits do people think they gain by self-serving actions? However, what is the real result for the person enslaved to sin?

¹ By the way, what Greek word does *logizomai* look like?

- 3. In what ways is the Christian's relationship to God like slavery? In what ways is that relationship not like slavery? (See also John 15:15; and Romans 6:17, 22-23.)
- 4. Why does Paul speak of slavery to "obedience" (v. 16), to "righteousness" (v. 18-19), and to "God" (v. 22)? How are these kinds of slavery connected? What is sanctification? How does it relate to these verses (vv. 15-23)? What would you say to the person who asked, "What is required to live a holy life?"
